Summary

Dedicated full-stack web developer eager to contribute to team success through hard work, attention to detail, and creative problem solving. Clear understanding of JavaScript and MERN. Motivated, quick to learn, and eager to build new skills.

Technical Skills

Front End: JavaScript, HTML5, CSS3, Bootstrap, React, Foundation, JQuery, AJAX
Back End: NodeJS, ExpressJS, MySQL, MongoDB
Tools: Git, npm, Heroku

Projects

Near Beer | https://github.com/mrmathews08/Near-Beer | https://mrmathews08.github.io/Near-Beer/
- Search for breweries by city, zip code, or brewery name. Returns up to ten breweries with maps and links to websites. Saves previous searches.
- Front end developer for HTML and CSS styling using Foundation.
- Uses JQuery, Foundation, Fontawesome, Open Brewery API, Mapquest API

Watch This! | https://github.com/gpardington/WatchThis | https://young-inlet-91954.herokuapp.com/
- Make a meta watchlist for all the shows and movies on any streaming service.
- Back end development with MySQL. Performed linting with esLint and Travis CI.
- Uses NodeJS, Express, Express-Handlebars, Express-Sessions, MySQL, Sequelize, Passport, OMDB API, Axios, bcrypt, and Heroku

Commerce City Youth Athletics | https://github.com/TLCroatt/ccya | (in development)
- A React app for the Commerce City girls softball league.
- Host the kanban board and repository. Oversee git merges. Front end development with React.
- Uses React, reactstrap, React Calendar, NodeJS, MongoDB, Express, Passport

Experience

Sabbatical - Caregiver   **8/2012 - Present**
Colorado Springs, CO
Took time off to raise children. Household manager and mother of two. Caregiver to neurodivergent child.

Springs Orleans - Pastry/Pantry Chef   **5/2011 - 12/2011**
Colorado Springs, CO
Made all desserts in house, including two desserts from personal recipes. Made sauces, salad dressings, garnishes, and prepped the pantry station. Worked dinner service making salads and plating and garnishing desserts.

Education
